President’s Message: by Jim Browe

On May 17th we had our last event for the year which was our Annual Golf Outing and Picnic at the Ravenwood Golf Club in Victor. It was a great event as always. We couldn’t have done it without our sponsors and donations. Their help with this event truly makes it fun for everyone, so thank you to everyone who donated.

This is my last president’s message so I wanted to thank everyone who helped me this year. I hope that I leave this post a little better than it was before. It was a fun and exciting year with many great programs and events.

Thank you to all of the board members, chapter officers and committee chairs.

PLATINUM, GOLD AND SILVER SPONSORS

Thank you for your support

PLATINUM

GOLD

SILVER
ASHRAE Research Promotion

The deadline for this year’s campaign is June 30th and its approaching fast. For those who have contributed this year we appreciate your support, for those of you who have not yet contributed this year please consider making a contribution to support ASHRAE Research.

For your convenience I have included a donation form in the newsletter that can be filled out with your information and sent directly to ASHRAE headquarters or if you prefer, you may also make your contribution quick and easy online at www.ashrae.org/contribute

In Memory of Jim Monaco – This year’s 50/50 raffle held at the annual Picnic / Golf Outing was another success this year. Together we raised enough to achieve a Major Donor – Bronze Level contribution in memory of Jim Monaco. Although there was only one cash winner of the raffle we can all feel good that our contribution is going towards a most worthy cause.

A special thanks to our current contributors this year:

---

**Mission:** To improve the quality of life and to answer tomorrow’s questions through research TODAY.

Over $2million raised annually to help fund $10million in research projects and student grant-in-aids.

Research is used to update the Society’s standards and guidelines.

Contributions come from more than 6,700 members, non-members, and companies.

100% of all funds raised go directly to research projects that support the HVAC&R industry.

Active research projects are conducted all around the world at various universities and private organizations.
Job Postings & Help Wanted

This section of the newsletter is reserved for those firms wishing to advertise their desires to hire from the Chapters Membership.

If you are interested in utilizing this FREE service provided by the Rochester Chapter, please contact our Newsletter Editor, Christina Walter (585.486.2148) or by email cmwalter@trane.com

This service is available to any firm in our industry looking for knowledgeable persons in the HVAC&R industry.

R.F. PECK CO., INC
889 ATLANTIC AVE
ROCHESTER, NEW YORK 14629
Phone: (585) 697-0836 Fax: (585) 697-0839

Job Title: HVAC Estimator

The R.F.PECK.CO., Inc is a commercial HVAC manufacturer’s representative firm who has been in business for over 50 years. We specialize in the distribution, filtration, measurement and control of airflow, as well as heating, ventilating and air conditioning equipment sales. Through our affiliation with quality manufacturer’s, we offer support to architects, engineers, designers and contractors by providing high quality equipment, competitive pricing and prompt service.

Our continued success has created a need for an additional inside sales/estimator in the Rochester, New York area.

We require an energetic and driven person that has engineering background or HVAC experience that is willing to grow into this position. The job consists of: mechanical blueprint reading, takeoffs and submittal preparation. We offer training and a competitive payment and benefits package.

Email resume to jbrowe@rfpeck.com.

Your technical training provider presents...

**Air Conditioning Fundamentals 2011**

**Target Audience:** Essentially anyone who wants to broaden their base in the fundamentals will greatly benefit from this training.
- [ ] Engineer: Sales, Consulting, Designer, Draftsman
- [ ] Non-Engineer: Technical Assistant, Application Specialist, Project Manager, Technician, Contractor, Estimator

**Primary Benefit:** Students will enjoy learning as much practical knowledge as possible about Air Conditioning Fundamentals. Students won’t waste a great deal of time in theory. The typical student can immediately apply what he/she learns upon returning to their office. Past attendees have boosted their overall confidence and found many ways to apply their recently acquired knowledge.

<table>
<thead>
<tr>
<th>2011 Course Offerings (Rochester, NY): (these classes are 3-days; Tuesday - Thursday)</th>
</tr>
</thead>
</table>

| [ ] Sep 20 - Oct 25 ‘Introduction to Air Conditioning Fundamentals’ (6-Tuesday evening series covering each of the above topics in a 3-hour ‘big-picture overview’) |

**Note:** For more information about each of these classes, log onto BeckerLearning.com

**Registration Deadline:** Each course will be filled on a first-come-first-reserved basis.

**Payment Deadline:** Complete Payment must be received prior to the start of the class.

**Contact:** Joe Becker, Becker Learning / 5980 Sheppard Road / Dansville, NY 14437
Phone: (585) 317-0000 Email: Joe@BeckerLearning.com

**More Details for 3-day courses:**

**Where:** We will hold the 3-day classes at the Homewood Suites Hotel at 2095 Hylan Drive, Henrietta, NY 14623. You may reserve a room for the Becker Learning rate of $104/night by calling (585) 334-9150 and telling them you are part of the Becker Learning group.

**Time:** We will start each morning at 8:00 AM and end by 5:00 PM (except Thursday when we end by 4:00 PM for travelers)

**Food:** Lunch, mid-morning and mid-afternoon snacks & drinks are provided.

**What is not included:** Transportation, other meals & lodging.

**Travel:**

**Arrival:** Since the seminar starts at 8:00 a.m., plan to arrive the night before.  

**Departure:** You can book flights out of Rochester International Airport as early as 5:15 p.m. on Thursday since our Henrietta, NY location is less than 10-minutes from the airport.

**More Details for 6-night Fall Intro Series:**

**Where:** The specific Henrietta, NY location will be decided at least 30-days before the class & attendees will be emailed the appropriate information with plenty of notice. The class will run from 5:00 - 8:00 pm. No meal is provided, so attendees should catch dinner before the class starts.
Registration: Please fill out this form for each person attending, and mail along with a Check or Purchase Order (made out to ‘Becker Learning’) to:

Becker Learning / 5980 Sheppard Road / Dansville, NY 14437

***If a PO is given, full payment must be received prior to the first day of class.

Cancellation Policy:
If someone cancels 60-days prior to the start of the class => no cancellation charge.
If someone cancels 30-60 days prior to the start of class => 50% cancellation charge
If someone cancels less than 2-weeks before the start of class, or simply doesn't show up => charged the full amount

Teaching Methodology:
Similar to the way Joe taught nine classes in the Graduate Training Program of The Trane Company, students will learn a concept and then immediately apply this new knowledge with an application problem. Quiz/testing will also be used to measure the overall effectiveness of the teaching. In this way, the program receives continual improvement through direct feedback.

About the Instructor:

Joe Becker is a graduate of the University of Wisconsin-Madison with degrees in Naval Science and Industrial Engineering (1979). He is also a Graduate from the U.S. Naval Nuclear Power School at Mare Island, California (1975). Joe is a registered Professional Engineer.

After nine years in the Navy, Joe resigned his Commission in the Civil Engineer Corps. Since graduating from GTP's class of 83-II, he worked as a Systems Engineer in C.D.S., Marketing Engineer in the Variable Air Volume Product Group, Manager of Technical Training in GTP, Sales Engineer, Sales Manager in Rochester/Syracuse & Regional Sales Manager for the NE Territory.

Joe currently works part-time for Trane's NE Territory and provides technical training through Becker Learning.
Welcome to ASHRAE’s Government Affairs Update. Along with the Government Affairs webpage, these periodic e-mail updates feature information on government affairs related activities of interest to ASHRAE members and others interested in the built environment. Archives of previous updates are available from the government affairs webpage (http://www.ashrae.org/advocacy).

Please pass this information on to interested colleagues who also may subscribe from the ASHRAE Government Affairs webpage. Should you wish to unsubscribe, information appears at the end of this e-mail.

If you have any recommendations regarding content, or have questions about or would like to participate in Washington Office activities, please contact ASHRAE Government Affairs staff at (202) 833-1830 or washdc@ashrae.org.

ASHRAE Government Affairs Update, 6/3/11

- DOE Releases Five New Case Studies of Innovation in Energy Efficiency
- House Subcommittee Calls for Energy Efficiency Spending Cuts
- DOE, ED, NSTA Announce New Energy Efficiency Educational Campaign

The bill would also require a cost-benefit analysis and return on investment for energy efficiency attributes and sustainable design achieved through DoD funds used to receive a Leadership in Energy and Environmental Design (LEED) Gold or Platinum certification.

The bill would prohibit FY 2012 DoD funds from being used to achieve a LEED Gold or Platinum certification, however these certifications could be obtained if they impose no additional cost to DoD.

The Senate is in the process of drafting its own bill, which is expected to be introduced in June. Congressional staff indicates the Senate bill will be different than the House version, and at this point it is unclear whether the above provisions will be included in the Senate legislation.

DOE Releases Five New Case Studies of Innovation in Energy Efficiency

The U.S. Department of Energy (DOE) recently announced the release of five case studies from a series spotlighting some of the most innovative projects funded under the Department's BetterBuildings program. BetterBuildings is a national program that is working to transform the marketplace for energy efficiency upgrades in homes, businesses, and institutions. More than 40 state and local governments and partnering organizations received over $500 million to lay the foundation for a sustainable energy efficiency market in the United States. The case studies will help program administrators and their partners develop and optimize energy efficiency programs to help consumers and businesses save money and reduce their energy use by making affordable energy-saving improvements.

For information on these five case studies, visit http://1.usa.gov/lZrjQW.
House Subcommittee Calls for Energy Efficiency Spending Cuts

The House Energy and Water Appropriations Subcommittee released and quickly approved their funding bill for fiscal year 2012. The energy & water appropriations bill provides funding for the U.S. Department of Energy, Army Corps of Engineers – Civil, Department of Defense – Civil, Department of the Interior, and several other agencies.

Under the House bill, the U.S. Energy Information Administration (EIA) would see an increase of $9.4 million, however this might not be all good news for EIA, as it is still about $5.6 million short of restoring the $15 million cut it received in FY 2011. This reduction was cited by EIA as a major reason for suspending work on the 2011 Commercial Buildings Energy Consumption Survey (CBECS), which many programs rely on to help understand building energy efficiency – including the ENERGY STAR Building program, LEED for Existing Buildings, Green Globes®, ASHRAE’s Building Energy Quotient (bEQ) building energy labeling program, and many others.

The Senate energy & water appropriations bill has yet to be introduced, but it can be expected that programs such as EERE will fare somewhat better, and the final figures negotiated by House and Senate members will likely fall somewhere between these two proposals.

For more information, visit [http://1.usa.gov/mnXkgI](http://1.usa.gov/mnXkgI).

DOE, ED, NSTA Announce New Energy Efficiency Educational Campaign

U.S. Department of Energy (DOE) Secretary Steven Chu joined with U.S. Department of Education (ED) Secretary Arne Duncan, and Dr. Francis Eberle, Executive Director of the National Science Teachers Association (NSTA), recently to announce the launch of a new energy education initiative: America’s Home Energy Education Challenge. This initiative is working to educate America’s youth about the benefits of energy efficiency, motivate students to play an active role in how their families use energy, and help families across the country save money. The program will encourage students, teachers, and families to learn more about energy consumption and efficiency and become more aware of how homes, schools, and utilities are interconnected within the community, while inspiring students to pursue studies in science, technology, engineering and mathematics.

For more information on this program, visit [http://www.homeenergychallenge.org](http://www.homeenergychallenge.org).

Mission Statement

ASHRAE will advance the arts and sciences of heating, ventilation, air conditioning, refrigeration and related human factors to serve the evolving needs of the public and ASHRAE members.

“Advancing HVAC&R to serve humanity and promote a sustainable world”

Vision Statement

- will be the global leader in the arts and sciences of heating, ventilation, air conditioning and refrigeration.
- will be the foremost, authoritative, timely and responsive source of technical and educational information, standards and guidelines.
- will be the primary provider of opportunity for professional growth, recognizing and adapting to changing demographics, and embracing diversity.

Roll Call: The above noted individuals were present.

Call to Order: 12:05pm

Minutes: BOG Meeting Minutes were unavailable from previous meeting.

Treasurer’s Report: Ed Burns
Treasurer's report was presented and accepted with minor modifications to dates.
Lisa from MechTech to do Quickbooks training for Chris Walter (incoming treasurer).

Technology Transfer: Jeff Davis
No Report.

Program/Tech Session: Jeff Ellis / Michelle Sommerman
Rob, Jeff Ellis and Michelle to meet to go over topics for next year
We have started receiving responses to topic suggestions.
Rob has lead on “rooftop wind restraint” presenter.

Membership: Phil Masters
No Report

Attendance: Tim Duprey
April meeting
46 RSVP’s.
7 no shows
2 walk-ins
39 total attendance
25 paid with PayPal
Golf Outing
227 RSVP’s
149 for golf and picnic
78 for picnic only
38 paid with PayPal

Student Activities/Awards: Al Rodgers
No “Member of the Year” award was given this year.
ASHRAE will recognize the recipient at the Clam Bake for the 2010-2011 year.
Recipient will be decided upon after past recipients are verified.
RIT Student Chapter is now known as “Energy Innovation Club” so that they can get funding from RIT.
In lieu of scholarship, each graduating senior going into HVAC will get all four handbooks on CD and chapter will cover travel expenses for 2 seniors to the Winter Meeting.
Voted unanimously by board.
Jeff Ellis to adjust MOPS.

YEA: Jaimee Reynolds / Eric Smith
Chris Lukasiewicz is new chairman.
Happy hour and tours will continue next year.
Chair is going to have to delegate responsibilities to other YEA members.
Will look to involve MCC more.
Will try to incorporate more career development.
Mini-golf was cancelled due to weather. Will look into doing Wii Golf next year.

Research: Jeff Close
Beth Smith is new chairperson.
Exceeded goal and high five this year.

Refrigeration: Mike Nohle
No Report.

Newsletter: Christina Walter
- Jaimee is new chair.
- This month’s articles are due 5/25/11.
- Next year we need to take pictures at golf outing and picnic.

Buyers Guide: Chuck White
Need to proceed with creating the electronic version.
Need to refund or scroll the people who have already paid for this year.

Historian: Lee Lomis
No Report.

Website:
No report.

Nominating: Joe VanCura
Membership chair is vacant:
Maybe Bill Clark could fill it

Picnic: Ed Burns
May want to add activities before and after to keep people from leaving so quickly.
Same format for next year.

Old Business:
Electronic Job Openings.
Principal of firm must be an active member to post job
Any active member can post a resume (including students).
Resumes would need to be renewed monthly to prevent old material from being posted.

CRC Registration
Jeff Ellis, Jeff Davis, Jim Browe, Lee Lumis, Al Rodgers and Chris Lukasiewicz to attend
August 18 to August 20

The meeting was adjourned @ 1:25 pm
From the Editor’s Desk
